

# 1977 Inogene Pass Mountain Marathon

The fourth annual Inogene Pass Mountain Marathon was run at 8:30 A.M. on Sunday, September 11, 1977. Weather conditions ranged from moderate to very bad as the day dawned overcast with threats of rain. Light rain began two minutes before the start and was continuous throughout the entire run for virtually all the runners. In addition the mountain weather made things even more interesting(?) by snowing a very wet, heavy snow above 12,900 ft. There has been fresh snow on Inogene Pass each of the four times it has been run, but this is the first time it has fallen during the race.

Twenty-seven runners started in the race, and in spite of the adverse conditions seventeen reached the summit and thirteen made it all the way to Telluride. In addition, two records were broken, a major accomplishment this year. Results are as follows:
