

1980 Inogene Pass Mountain Marathon

The seventh annual Inogene Pass Mountain Marathon was run at 8:30 A.M. on Sunday, September 8, 1980. This year's race was almost a carbon copy of last year's in that weather conditions were excellent. After several days of sometime severe afternoon thunderstorms, the day dawned comfortably cool with a few "fair weather" clouds clinging to the peaks. Participants were allowed to experience an alpine running course dampened by rain and alpine with the sun accentuated deep colors of early Fall.

Thirty-seven runners started in this year's race and three new records were set in the six divisions run. All thirty-seven runners reached the summit at 13,114' Inogene Pass and 35 made it to Telluride. There were 31 men and 6 women. Ages ranged from 16 to 53.
