

1981 IMOGENE PASS MOUNTAIN RUN

The eighth annual Imogene Pass Mountain Marathon took place at 8:00 AM, Sunday, September, 13, 1981. Conditions, as in the two preceding years, were excellent, following several days of afternoon showers. The night before the race, several inches of snow fell above timberline, and at race time there were about four inches of snow at the summit.

Sixty-one runners (nine women and fifty-two men) left Ouray, with fifty-nine crossing the finish line in Telluride in well under five hours. Participants' ages ranged from 23 to 48.
