

1986 IMOGENE PASS RUN

The 13th annual Imogene Pass Run was run at 8:45 a.m. on Saturday, September 6, 1986. In contrast to 1985's blizzard conditions which created a survival situation for many runners, the 1986 race day dawned comfortably cool and clear. The sun shown brightly throughout the race and veteran runners of the race were able to enjoy the pleasant end of the weather spectrum for which the race is becoming renown.

One hundred eighty four runners started in this year's race (a new record) and all but three crossed the finish line in Telluride. There were 151 men and 30 women finishers, and ages ranged from 17 to 71. Most of the runners were from the San Juan area, but a significant number came from the Denver-Boulder area and a few came from as far away as Florida and California.

A total of five new records were set in this year's run. A new course record was set by Sheldon Larson (2:14:21), breaking the 2:15:56 record by Rick Trujillo which stood for 10 years. The good weather must have agreed with the veteran runners in that both Mary Parker and Vici DeHaan broke their own women's age category records. Vici's bettering of her own previous record by more than 21 minutes is incredible. Likewise, Tom Haggard's performance broke his age division's old record by nearly 13 minutes. Phillip Miller also broke his own previous record and shows that runners need not slow down after they reach the age of 60.
